

## **Arguments For and Against Free Trade**

### + Positives:

- Encourages economies to both produce and import
- Allows citizens to buy products at lowest price possible
- Many people believe free trade improves economic efficiency
- People can purchase their wants and needs at the lowest possible price
- Allows under developed countries to develop

### - Negatives:

- Nations tend to produce less and import more
- Business will move operations to areas where production is cheaper (off shore production)
- Protection of national security will be enhanced.
- Protection of the new domestic industries will be enhanced.
- Domestic jobs will be protected from foreign competition.
