Shifts in Demand Practice

SSEMI3 The student will explain how markets, prices, and competition influence economic behavior.

Directions: For each scenario, draw the demand for the good in parentheses. Then, based on what is written in the scenario, shift the demand graph appropriately. Be sure to label the original demand curve as “D1” and the shifted demand curve as “D2” and draw arrows to show if the demand curve shifted to the right or left. Label the axes on the graph. Then, write what the determinant of demand is.

1. At every grocery store in the area, the price of hot dogs has been at an all-time high (Hot dog buns).
