## Age of Revolutions Project

Standard: SSWH14: The student will analyze the Age of Revolutions and Rebellions.

b. Identify the causes and results of the revolutions in England (1689), United States (1776), France (1789), Haiti (1791), and Latin America (1808-1825).

With a partner, you will create a poster that describes the causes and results of the revolutions in the standard. Be sure to include the major rulers and leaders on both sides of the revolutions. You will need images or graphics to help explain your revolution (i.e. portraits or maps). You will present these posters to the class. The class will take notes from the posters you present so make sure your information is detailed and correct. You may use the links on the Schoology page, the textbook, or the Internet to find your information.
